

Sirius April Extra 2012

This puzzle celebrated the beginning of the new month as a challenging 3D jigsaw. Clues were presented in alphabetical order of their solutions but with no directions. Now the directions are included with the clues and in the grid.

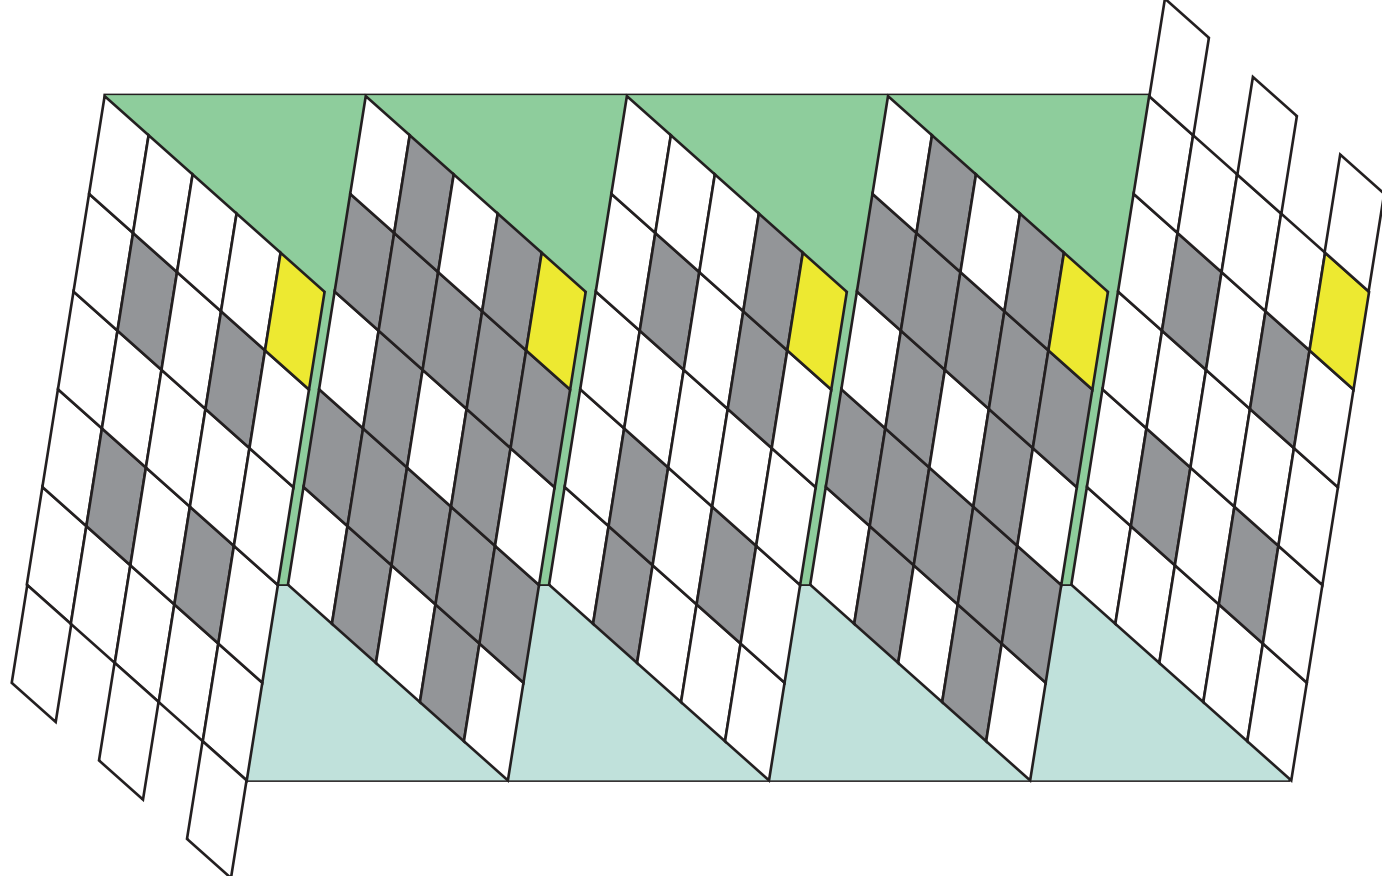

The colours and highlights in the grid are there to help the eye, particularly with down solutions.

April Fool Solution

This puzzle was first presented as a jigsaw with no direction for a challenge. Later in the month directions were supplied to make it more of a jaunty romp.
