

Seven Dials Mystery Numbered Grid

This puzzle was set without clue directions as a spinning jigsaw for The RNIB 3D Crosswords Cup 2013 held October 12th Penderel's Oak, Holborn. See October Extra.

It is repeated here with full directions, all veils removed. It changes the puzzle from extremely tough to accessible.

Circular, C, solutions run in a clockwise direction around the outside of dials. Diametric, Di, solutions start from the edge of a dial passing through the centre to the other side. Down, d, solutions are conventional.

Dial 8 Solutions

Whodunnit? Where and how?

(See solution on how they fit in the dial.)

RNIB 3D Crosswords Cup 2013

The Seven Dials Mystery

A Conventional Crossword in Three Dimensions

Clues are arranged in alphabetical order of their solutions. Four solutions do not fit in the main seven dial grid. They slot into an eighth dial in whimsical fashion.
